Today, residents of Austin County have done much to prepare for any Austin County disaster we may face.

Our success is due in large part to the many volunteers who support Austin County Citizen Corps. More than 100 volunteers are involved in making our county a safer place each and every day.

Your family's ability to survive disaster depends on you doing your part to prepare for the unexpected. Whether a disaster is inconvenient or catastrophic, your family's emergency plan remains the most dependable tool to keep you safe.

Please join me in helping make our county better prepared by urging a family member, neighbor, or co-worker to take these basic steps to prepare for anything from a house fire to a terrorist attack.

Get a kit. Make a plan. Be informed. Get involved.

If you have not already signed up for the public notification system, please go to [www.austincounty.com](http://www.austincounty.com) – sign up now.

Please call if my office can be of service to you. We take great pride in providing public service.

Carolyn Bilski  
Austin County Judge
